

## OPTI DG 20

Drill bit grinder with continuous speed regulation and exact repeating accuracy

### Convincing arguments: quality, efficiency and price

- Solid cast iron mounting base with high dead weight provides for low-vibration operation
- Balanced rotor with quality ball bearings ensures long service life with very smooth running
- Magnetic switch with lockable emergency stop function
- Wide grinding range of twist drill from 3 to 20 mm
- Exact repeating accuracy due to prism-guided feed
- Continuous speed regulation for different materials
- Angle adjustment for all twist drill types
- Prismatic holding fixture for precise centring of the workpiece

### Convincing arguments...

- Stable prismatic rest for exact centring and secure fixing

- Self-trimming cup wheel
- No need for whetting

- User-friendly safety switch according to IP 54 with low-voltage release, emergency-stop button and rubber cap for protection against dust and water

<b>Model</b>	<b>OPTI DG 20</b>
Item No.	310 0020
€ (VAT excl.)	<b>550.00</b>

<b>Technical data</b>	
Grind stone external-Ø	40 mm
Continuous speed	1,400 - 7,600 rpm
Bit grinding angle	90° - 150°
Grinding diameter capacity	3 - 20 mm
Motor power 230 V / 50 Hz	500 W
Dimensions (L x W x H)	225 x 490 x 240 mm
Weight	26.7 kg

### Extent of supply:

- Cooling water tray

<b>Accessories</b>	Item No.	€ (VAT excl.)
■ Cup wheel	310 7120	<b>14.00</b>
